Ganesh Babu D

Marketing Operations Manager | B2B Data-Driven Strategies |
Passionate About MarTech Stack | Dedicated to Process Efficiency
| 8x Certified Salesforce Consultant | Marketing Trailblazer Group Leader

Chennai, Tamil Nadu, India

Summary

As a Marketing Operations Manager with a strong focus on B2B data-driven strategies and process efficiency, I bring a unique blend of experience in optimizing the MarTech stack and driving impactful marketing operations initiatives. With 7 Salesforce certifications and a track record as a Marketing Trailblazer Group Leader, I am deeply passionate about using technology and analytics to elevate marketing effectiveness and drive business growth.

Throughout my career, I've specialized in delivering high-quality solutions that empower sales and marketing teams with actionable insights and streamlined processes. My expertise spans Salesforce platforms, campaign attribution, MarTech Integration and CRM optimization—all aimed at enhancing the efficiency and scalability of B2B marketing operations.

Key Accomplishments:

- Successfully led multi-region projects across North America, Europe, and APAC, ensuring high-quality delivery and customer satisfaction.
- Played a key role in Sales & Pre-Sales, providing impactful demos that highlight Marketing Automation System capabilities to convert prospects and meet unique customer needs.
- Implemented Salesforce Sales Cloud & Pardot for more than 10+ Clients.
- Spearheaded the Salesforce Marketer Community Groups in Chennai, India, fostering a network of professionals focused on sharing knowledge and advancing the industry.

Moving forward, I'm excited to expand my expertise in MarTech Integration, AI, and multi-channel marketing optimization within the

B2B industry. I'm eager to leverage my technical and operational skills to support companies looking to enhance their marketing performance and drive measurable ROI.

If you're seeking a results-driven, certified Salesforce consultant who can transform your marketing operations and help achieve ambitious goals, let's connect!

Experience

Temenos

MarTech Architect

August 2023 - Present (3 years)

Chennai, Tamil Nadu, India

HCL Technologies

Senior Salesforce Consultant

July 2022 - July 2023 (1 year 1 month)

Chennai, Tamil Nadu, India

- Implemented Pardot for over five clients, overseeing end-to-end Pardot configuration and integration projects to improve campaign management, lead generation, and marketing automation processes for B2B businesses.
- Expert in configuring Pardot and B2B Marketing Analytics, leveraging automation rules and engagement journeys to develop sophisticated lead nurturing mechanisms that drive higher lead quality and conversion rates.
- Designed and implemented a process to capture UTM parameters for all digital touchpoints, reducing reporting time for the Marketing team by 50% and enabling accurate multi-touch attribution and campaign performance analysis.
- Served as the Lead Developer on a high-impact migration project, managing the transition of over 600 email templates and form handlers, ensuring minimal disruption and maintaining data integrity during the migration to enhance customer engagement and email marketing efficiency.
- Developed custom engagement journeys and segmentation strategies to support targeted, personalized campaigns in Pardot, optimizing the customer journey and boosting engagement rates for each client.

- Streamlined marketing reporting and analytics by creating dashboards that track campaign KPIs, engagement metrics, and lead conversion rates, empowering stakeholders with real-time insights for better data-driven decision-making.
- Established lead scoring and grading models in Pardot to prioritize high-quality leads, improving lead handoff to Sales and contributing to revenue growth through more effective Sales and Marketing alignment.
- Trained clients' marketing teams on Pardot best practices and analytics tools, ensuring full adoption and maximizing the value of the MarTech stack to support their B2B marketing goals.

RPM International Inc.

Pardot Consultant

January 2022 - June 2022 (6 months)

Coimbatore, Tamil Nadu, India

- Implemented Pardot across five business units for Carboline, leading the CRM integration and providing comprehensive training for the Marketing team to enhance their campaign execution and lead management capabilities.
- Designed and executed automated scoring, segmentation, and email marketing strategies in Pardot, resulting in an average 54% increase in lead conversions by refining lead nurturing and prospect engagement processes.
- Developed dynamic email templates, landing pages, forms, and website tracking using Pardot's automation tools, creating seamless and targeted marketing campaigns that aligned with customer journey goals and sales enablement strategies.
- Optimized the customer journey through behavior-based email marketing and automated workflows, driving improved engagement metrics and fostering personalized customer experiences tailored to lead behavior and lifecycle stage.
- Leveraged Pardot for advanced segmentation to create audience-specific campaigns, increasing campaign relevance and targeting precision to support multi-touch attribution and marketing ROI tracking.

- Collaborated with Sales teams to align Pardot's lead scoring and segmentation models with their qualification criteria, enhancing lead handoff processes and ensuring high-quality lead flow to the pipeline.
- Monitored and analyzed Pardot campaign performance to identify trends and optimize email deliverability, open rates, and click-through rates (CTR), supporting data-driven decisions that improved customer retention and lifetime value.
- Developed reporting dashboards in Pardot to provide real-time insights into campaign performance and customer journey stages, enabling stakeholders to make informed strategic decisions based on engagement and conversion metrics.

KONE

6 years 7 months

Marketing Operations Specialist

April 2018 - December 2021 (3 years 9 months)

Chennai

- Managed and optimized the MarTech stack to enable the Marketing team to effectively execute, track, and optimize multi-channel B2B campaigns, including email marketing, webinars, digital advertising, and event-based campaigns for improved campaign performance and pipeline growth.
- Automated data quality and data management processes within the CRM system, implementing best practices in segmentation, list management, and lead nurturing to enhance lead scoring and conversion rates across various customer journey stages.
- Applied A/B testing and campaign experimentation on engagement strategies, driving improvements in open rates, click-through rates (CTR), and overall campaign effectiveness for targeted customer segments.
- Conducted customer database analysis to identify growth patterns, segment-specific insights, and potential gaps, supporting data-driven decision-making and customer retention strategies aligned with demand generation goals.
- Developed and enforced data hygiene protocols to maintain high-quality data for reporting and analytics, ensuring accurate attribution modeling and providing actionable insights for Sales and Marketing alignment.

- Leveraged marketing analytics and reporting tools to track key campaign KPIs and ROI metrics, empowering stakeholders to make informed decisions on budget allocation and resource optimization.
- Partnered with Sales Operations to streamline lead management workflows and improve campaign-to-sales alignment, supporting revenue operations (RevOps) objectives and contributing to an integrated sales and marketing funnel.
- Monitored customer engagement trends and leveraged insights to refine targeting strategies, optimizing customer lifecycle marketing and personalized engagement within the B2B landscape.

Sales Operations Specialist

June 2015 - March 2018 (2 years 10 months)

India

- Managed Salesforce CRM user profiles, roles, permissions, and validation rules to support seamless access control and data accuracy within B2B Sales and Marketing operations.
- Configured roles, public groups, role hierarchies, and sharing rules to facilitate cross-functional collaboration between Sales and Marketing teams, enhancing pipeline visibility and ensuring secure record-level permissions across diverse user groups.
- Developed and optimized Salesforce reports and dashboards (including summary reports, matrix reports, pie charts) to deliver real-time insights into pipeline health, lead-to-revenue metrics, and campaign performance, helping Sales leaders make data-driven decisions.
- Created customized dashboards and performance metrics tailored to the needs of Sales Operations and B2B business units, enabling stakeholders to track key sales performance indicators (KPIs) and campaign effectiveness.
- Automated lead assignment and routing workflows within Salesforce, reducing response times and enabling efficient lead management that supports multi-touch attribution and enhanced lead conversion rates.
